GREESHMITA BHOGADI

Software Engineer | Full Stack Developer

Hyderabad, Telangana | +91 8142544777 | bhogadigreeshmita@gmail.com | GitHub | LinkedIn | Portfolio

Profile Summary

Full Stack Developer with a strong foundation in modern web technologies, including React.js, Node.js, Express.js, MongoDB, and Python/Flask, complemented by certifications in AWS and Google Cloud Platform (GCP). Experienced in developing end-to-end web applications, designing RESTful APIs, and building scalable, database-driven solutions across the MERN stack.

Passionate about developing efficient, secure, and user-focused software solutions, with a keen interest in software Development. Demonstrates strong problem-solving abilities, adaptability, and a commitment to continuous learning and professional growth.

Areas of Impact

• Full Stack Web Application Development	• Frontend Development & UI Engineering	• Cybersecurity Fundamentals
• Cloud Computing	• REST APIs & JWT	• AI&ML

Work Experience

Full Stack Developer Intern | DB4 Cloud Technologies **Apr 2026 – Oct 2026**

- Full Stack Development: Contributed to full-stack application development using React.js, Node.js, Python, and the MERN stack.
- Frontend Development: Worked with React.js to develop responsive and user-friendly web application interfaces.
- Backend Development: Gained hands-on experience in backend development, application logic, and server-side technologies.
- Application Integration: Worked with frontend and backend components to support end-to-end application functionality.
- Software Engineering Practices: Strengthened practical development skills through debugging, testing, problem-solving, and collaborative development activities.

Cybersecurity Internship, CISCO AICTE Virtual Internship Program **May 2023 - Sep 2023**

- Network Security Analysis: Gained practical exposure to network traffic monitoring and analysis using Wireshark and Nmap.
- Vulnerability Assessment: Explored vulnerability identification, security assessment techniques, and basic penetration testing concepts.
- Threat Detection: Developed an understanding of network threats, suspicious traffic patterns, and cybersecurity risk mitigation.
- Security Fundamentals: Applied networking and cybersecurity concepts through virtual labs and practical exercises and Studied security best practices, system protection, and cloud security fundamentals.

Technical Skills

Programming Languages: Java, Python, JavaScript, C
Frontend Technologies & Libraries: React.js, HTML, CSS, Tailwind CSS
Backend Technologies: Node.js, Express.js, Flask, REST APIs, JWT Authentication
Databases: MongoDB, MySQL, PostgreSQL
Cloud Platforms: AWS, Google Cloud
Development Tools and Version Control: Git, GitHub, VS Code

Projects

FoodieHub-v2|Full Stack Food Delivery App

React.js • Node.js • Express.js • MongoDB • JWT
GitHub: github.com/Greeshmita-23/FoodieHub-v2

- Development: Built JWT-based authentication, restaurant management, and order workflows, incorporating shopping cart, favorites, reviews, and coupon functionality through RESTful Express.js APIs.
- Impact: Developed an end-to-end food delivery application featuring secure authentication, integrated backend services, and a responsive React.js user interface.

Student Result & Grade Management System

Python • Flask • MySQL • HTML • CSS • JavaScript
GitHub: github.com/Greeshmita-23/Student-Result-Management-System

- Development: Built a Student Result & Grade Management System with role-based access for administrators, faculty, and students, incorporating grade management, attendance tracking, academic records, and result processing.
- Impact: Streamlined academic record management through centralized student data, performance reports, analytics, and downloadable result reports, improving accessibility and administrative efficiency.

Personal Portfolio Website

React.js • Vite • Tailwind CSS • Framer Motion
GitHub: github.com/Greeshmita-23/portfolio-website

- Development: Designed and developed a responsive personal portfolio using React.js, Vite, and Tailwind CSS to showcase technical skills, projects, certifications, and professional experience.
- Impact: Created a centralized professional platform with interactive UI components and direct access to GitHub and LinkedIn profiles.

Certifications & Professional Training

- AWS Certified Cloud Practitioner
- Google Cloud Certified Associate Cloud Engineer
- Automation Anywhere Certified Essentials RPA Professional
- JNCIA-Junos (Juniper Network Certified Associate)
- Data Science & AI | Digital Edify Technologies | Aug 2025 – Jan 2026
- Power BI | Digital Edify Technologies | Sep 2025 – Nov 2025

Academics

KL University, Guntur — B.Tech in Computer Science *Aug 2021 - May 2025*
Narayana Junior College, Amaravathi — Intermediate MPC *Jun 2019 - Jun 2021*
