GREESHMITA BHOGADI

Software Engineer | Software Testing | Full Stack Development

Hyderabad, Telangana | +91 8142544777 | greeshmita.bhogadi@gmail.com | GitHub | LinkedIn | Portfolio

Profile Summary

Computer Science graduate (2025) with a strong foundation in Python, JavaScript, data structures and algorithms, objectoriented programming. Hands-on experience building full-stack applications using React.js, Node.js, Express.js, Flask, MySQL, MongoDB, and REST APIs. Experienced in developing end-to-end applications with authentication, database integration, responsive interfaces, and cloud platforms including AWS and Google Cloud.

Areas of Impact

• Full Stack Development	• Software Testing	• AI/ML & Cloud computing
• MERN Full Stack	• REST APIs	• Cybersecurity Fundamentals

Work Experience

Data Science & AI Training, Digital Edify Technologies *Aug 2025 - Jan 2026*

- Practiced data analysis, statistical methods, and machine learning model building.
- Strengthened concepts through case-study based, hands-on learning exercises.

Power BI Training, Digital Edify Technologies *Sep 2025 - Nov 2025*

- Designed interactive dashboards and BI reports for data-driven storytelling.
- Built data visualizations to support clearer, faster decision-making.

Cybersecurity Internship, CISCO AICTE Virtual Internship Program *May 2023 - Sep 2023*

- Performed network traffic analysis using Wireshark and Nmap for traffic analysis and threat detection.
- Practiced vulnerability assessment, penetration testing, and applied cybersecurity labs.
- Built practical exposure to cloud and network security concepts.

Projects

FoodieHub-v2 — Full Stack Food Delivery App

React.js • Node.js • Express.js • MongoDB • JWT

GitHub: github.com/Greeshmita-23/FoodieHub-v2

- Built JWT-based authentication with restaurant management and order flow, plus a shopping cart, favorites, reviews, and coupon functionality.
- Developed RESTful Express.js APIs and a responsive React.js UI backend by MongoDB.
- Delivered a complete, production-style food delivery experience with secure authentication and a responsive React.js UI.

Student Result & Grade Management System

Python • Flask • MySQL • HTML • CSS • JavaScript

GitHub: github.com/Greeshmita-23/Student-Result-Management-System

- Built a student portal with attendance tracking, grade management, and PDF/chart-based performance reports.
- Integrated Flask with MySQL for application data management.
- Developed a web-based workflow for managing and presenting student academic records.

SentinelRx — Adversarially-Robust & Privacy-Preserving Medication-Adherence ML

Python • Scikit-learn • Pandas • NumPy • Machine Learning • AI Security

GitHub: https://github.com/Greeshmita-23/SentinelRx.git

- Developed a security-first machine learning pipeline for medication-adherence prediction, including dataset integrity auditing, target-leakage detection, and leakage-safe feature engineering.
- Benchmarked Logistic Regression, Random Forest and Histogram Gradient Boosting models and evaluated performance using cross-validation, ROC-AUC, accuracy, precision, recall and F1-score.
- Evaluated model robustness through adversarial examples, membership inference and model extraction attacks.
- Implemented randomised smoothing, differential privacy, poisoning sanitisation, and runtime input validation to improve model robustness and privacy.

Certifications

- AWS Certified Cloud Practitioner
- Google Cloud Certified Associate Cloud Engineer
- Automation Anywhere Certified Essentials RPA Professional
- JNCIA-Junos
- Tata GenAI Powered Data Analytics Job Simulation (Forage)
- Cisco AICTE Cybersecurity Virtual Internship

Achievements

- Built and deployed multiple full-stack applications across MERN and Flask
- Designed and deployed a professional developer portfolio, live on Vercel
- Active GitHub contributor

Skills

Programming Languages: Java, Python, JavaScript, C
Computer Science: Data Structures & Algorithms, Object-Oriented Programming, Algorithm Design, Problem Solving, Complexity Analysis
Software Testing & Security: Security Testing, Vulnerability Assessment, Penetration Testing, Threat Detection
Web Frameworks & Libraries: React.js, HTML, CSS, Tailwind CSS
Backend Technologies: Node.js, Express.js, Flask, REST APIs, JWT Authentication
Databases: MongoDB, MySQL, PostgreSQL
Cloud Platforms: AWS, Google Cloud
Tools: Git, GitHub, VS Code, Wireshark, Nmap

Academics

KL University, Guntur — B.Tech in Computer Science *Aug 2021 - May 2025*

Narayana Junior College, Amaravathi — Intermediate MPC *Jun 2019 - Jun 2021*
